Research Positions

03/2008-present	Faculty Member, University of Michigan Comprehensive Depression Center, Ann Arbor, MI
-----------------	---

Clinical Interests

- My clinical teaching and practice focuses on developmental psychopathology and prevention and intervention strategies to strengthen perinatal, infant and early childhood mental health. I have a particular interest in young children and caregivers who have experienced trauma and/or adversity. Special populations of interest include military families with young children and children, caregivers, and professionals involved in the child welfare system.

Research Interests

- I am a clinical and developmental psychologist with expertise in perinatal psychiatry, parenting, and infant and early childhood mental health. My research focuses on intergenerational transmission of risk; parental mental representations and meaning making systems; parenting and child bio-psycho-social outcomes; relationship disruptions in early childhood; interventions to support parent-child relationships; and the special needs of young children in the context of military families, adoption, and foster care.
